office@fwf.ac.at / http://www.fwf.ac.at

Name of applicant: Sinabell, Franz

Project title: A toolbox of models of a sustainable economy

Attachment detailing co-authors

A co-author of an application is any person who in addition to the applicant has made a creative contribution to an application. The FWF has defined the following requirement for co-authorship:

- Substantive work during the process of conceiving or preparing a research application, irrespective of whether this took the form of contributing ideas, of performing experiments or theoretical work, of gathering, analysing or interpreting data etc.

In future, all persons who meet this requirement must be mentioned as co-authors. Persons who do not meet this requirement may be neither the applicant nor the co-author of an application.

Name and contact details	brief description of the contribution
Formayer, Herbert herbert.formayer@boku.ac.at	idea on how to develop future climate scenarios in a cost effective manner
Hauser, Isolde isolde.hauser@oeaw.ac.at	ideas on strategies to trace biodiversity and land use in the language and in names, draft text
Huber, Ilse ilse.huber@inode.at	ideas on strategies to involve the general public
Kapelari, Suzanne suzanne.kapelari@uibk.ac.at	ideas on ways to dissemination of results among farmers, draft text
Kratena, Kurt kurt.kratena@wifo.ac.at	idea on linking mikro- and makro model, draft text
Schmid, Erwin erwin.schmid@boku.ac.at	idea on linking indicators to land uses and how to integrate bio-physical indicators with agricultural sector model, draft text
Sinabell, Franz Sinabell franz.sinabell@wifo.ac.at	project idea, co-ordination, final text
Tappeiner, Ulrike ulrike.tappeiner@uibk.ac.at	ideas on biodiversity indicators, the structure and management of the project, draft text
Tasser, Erich erich.tasser@uibk.ac.at	biodiversity indicators specific to agriculture, draft text
Wüger, Michael michael.wueger@wifo.ac.at	idea on sustainability, households and rural non rural consumption, draft text
